Power Tool

Two Timer

We can't resist a two-for-one deal, but more often than not, lackluster results just leave us twice as disappointed. Not so with Mally Beauty's new Double Duty Perfect Tweezers. The slanted side can be used to clean up stray hairs; the pointed one helps shape the brow line "where you want to be especially careful not to overpluck," explains eyebrow specialist Maribeth Madron.

Bottom Line: The tweezers are tight and springy; hold them close to the tip for maximum control. —LIANA MARRARO
