

Star beauty tips for fall

Beyoncé's makeup artist, Mally Roncal, shares her insider secrets for achieving an A-list look

Nix the tan: Creamy skin is more elegant

Super-dark or shimmery tans are so last year. "This fall, creamy skin is in," says celeb makeup artist Roncal. To play up or elongate limbs, "dust a little shimmer on a few sexy spots — the shoulders, collarbone, décolletage and fronts of the shins," she says.

DON'T

Faux tans like **KELLY RIPA'S**, accentuate flaws like wrinkles.

DO

To rock the creamy look, it's key to exfoliate weekly so skin looks soft and smooth like **LIV TYLER'S**.

Get flawless-looking skin in a snap

The No. 1 beauty blunder? Cakey makeup face. "To get a natural look for my clients, I apply my Perfecting Powder only to the areas that are prone to shine, like the middle of the forehead, the sides of the nose and the chin," Roncal explains.

Nude lips are super sexy

Think red lips are the fall beauty staple? Think again. "A shiny nude is just as glam," says Roncal. "Rihanna loves to rock this look. The trick is to fill in the entire lip with a nude pencil [for long-lasting wear], then layer it with a high-shine gloss."

Don't match mani and pedi colors

When it comes to nail polish, matching fingers to toes is passé, Roncal says: "I get a fresh look by pairing dark metallics with sheer shimmer shades. Right now, I'm obsessed with Pump Up the Jam and Princesses Rule!"

Get an instant glow with shimmer

Make dull skin brighter and more beautiful with this trick: "Apply a highlighter with a subtle shimmer to the brow bone and cheekbones for a sculpted look, and a dab right on the cupid's bow [the dip in the middle of the top lip] to make the pout look fuller," Roncal shares. "I always do this on Jennifer Lopez to enhance her naturally radiant glow."

Subtle eyes are a standout

Roncal has a secret to defining eyes without overdoing it. "I use my New Naturals TwinLiner — a double-ended liner with a dark shade on one side and a lighter one on the other." Here's how easy it is to get the look:

Step 1: Apply the dark color to the top lash line. The deeper shade gives the eyes definition.

Step 2: Apply the lighter color to the lower lash line. This helps brighten and complete the frame around the eyes.
