

## This baby has changed my life!

No pinching, perfect amount of pressure, no drama...

**Some tips on how to use her:** **First**, open the curler as wide as it will go. Insert your gorgeous lashes into the opening and give a gentle squeeze as close to your lash line as possible.

**Next**, release and pull the lash curler out ever so slightly. Squeeze again. Follow to half of the lash or even almost to the tip of the lash. The great thing is that you have sooo many options! Curl all your lashes for a bright wide eyed open look.

Give them just a slight bend in the middle for a sexy, smoldering lash. You can

even just curl the outer lashes for a different more cat eye look. That's the great part of our design... no sidebars so the possibilities are endless!!
