Paint the
Town
brush
set

Hey Ladies!

Thank you so much for joining me in the joyful experience that is Mally Beauty... Here, we love being a Girl, a Woman, truly celebrating and reveling in being Female!

There is nothing I love more than sharing my secrets and tricks *with* women so that they can feel their best. I want you to feel strong, sexy, and confident so that you can go out there and conquer the world! I want you to forget all that negative stuff and realize that we are not all beauty clones. Love yourself... Whatever makes you different makes you beautiful, that's what my Mom always said! I want my makeup to become part of your beauty ritual. Whether you take three minutes to get ready or three hours, (right!), I want to make products that make you look and feel sensational all day long! I want it to be easy and I want you to love every second of it.

I have always loved makeup and skin.

Since I was a child, I have put makeup on anything that was not nailed down! My parents were doctors so I just assumed that that's what I was going to be, but I couldn't deny my passion for makeup! So, I worked really hard, got a great agent that believed in me and years later, here we are. I found that I could do what I loved... Follow your dreams, they *can* become a reality!!

As much as I love working with all those glamorous celebrities, what I REALLY adore is working with babes like you! My products are great because they are made for superstars just like you. I took all my years of tips and tricks and really thought about us REAL GIRLS and our needs. We have to go out and be superwoman, look fabulous doing it, and get there with in a snap! My stuff is fool proof, easy, gorgeous... no drama... just fabulous YOU!

Brushes made in China

All the tools you need for that perfect face!

Powder: sooo many uses for this brush! Use it with my Visible Skin Adjustable Foundation... just smooth the silk-like powder foundation in a circular motion all

over the face, or even just where you need it. This brush gives you such a beautiful, even application that it will be perfectly seamless! Just use

soft buffing motion wherever you want the product. Also, this brush is great for all types of loose or pressed mattifying powders. Use it by lightly dusting all over the face or just in your t-zone. Use a light hand and you'll never look overdone!

Blush: oohhh! I love blush! Just looks healthy and alive! This brush is the perfect shape and size to give you that gorgeous glow! Start by smiling in the mirror (love that!)

and you will find the apple of your cheeks. Then, in a circular motion apply the blush to that fleshy part of the cheek. Start with tiny circles and get slightly bigger... perfect! For a different look, maybe try to lightly dust your blush a little higher, just blending into your cheekbones more towards the sides of your face. Again, the shape of this brush is perfect for that. **Options!**

Flat eye shadow brush: the bigger size makes this brush perfect for so many things. I love to use it to dust light shimmer shadow just on the brow bone. I also love it to apply a gorgeous wash all

over the lid from lash line to brow. Just make sure you tap the excess off the brush so it stays light and fresh!

Round eye shadow brush: perfect shape for that lid! Use this brush to apply that perfect shade to your lid from lash to crease. It is even an awesome shape to apply just to the crease to a smoky look!

Eyeliner brush: the perfect precision tool! So many uses for this little brush: use it to apply a rich, dark shadow just along the lash line for a natural definition, use it to smudge your pencil liner for a smoked out kohl look... anywhere you need a thinner line!

The shape of the brush is so great because you can get an extra thin line with a light hand or a thicker line with a slightly heavier hand.

Lip brush: sooo perfect for lipstick or gloss! So sharp and super flat so you can get the most professional lip line possible! Use it to run your lip product all over your lip, then turn it to the side and get the most precision lipline ever.

Here's a tip: rest your elbow on the table when doing darker shades to avoid shaking and getting squiggly lines!

To find these and order more great
