**Hey Ladies!**

**Thank you so much** for joining me in the joyful experience that is Mally Beauty... Here, we love being a Girl, a Woman, truly celebrating and reveling in being Female!

**There is nothing I love more** than sharing my secrets and tricks with women so that they can feel their best. I want you to feel strong, sexy, and confident so that you can go out there and conquer the world. I want you to forget all that negative stuff you may have heard and realize that we are not all beauty clones. Love yourself... Whatever makes you different makes you beautiful, that's what I was always taught growing up. I want my makeup to become part of your beauty ritual. Whether you take three minutes to get ready or three hours, (yeah right!), I want to make products that make you look and feel sensational all day long. I want it to be easy and I want you to love every second of it.

**I have always loved makeup** and skin.

Since I was a child, I have put makeup on anything that was not nailed down. My parents were doctors so I just assumed that that's what I was going to be, but I couldn't deny my passion for makeup. So, I worked really hard, got a great agent that believed in me and years later, here we are. I found that I could do what I loved... Follow your dreams, they *can* become a reality!

**As much as I love working** with all those glamorous celebrities, what I REALLY adore is working with babes like you! In designing this line, I took all my years of tips and tricks and really thought about us REAL GIRLS and our needs. We have to go out and be Superwoman, look fabulous doing it, and get there in a snap. My stuff is fool proof, easy, gorgeous... no drama... just fabulous YOU!

**There is nothing that makes me happier** than bringing you state of the art, fantastic innovations that will change your life for the better!!! Here is something that I am so very proud of...it will instantly improve the look of your skin, make it look mattified and poreless, give you a seamless young look that you will not believe! Not only that, it will protect your skin, your make up and your look as the day progresses!

**Introducing: Evercolor Poreless Face Defender!** AS you may or many not know, I am not a huge fan of powder. Not only is it so old fashioned, it makes you look older, more tired and dry! Who needs it!?!? This amazing product not only takes the place of powder but it does so much more! Because of the state of the art

technology, it is even protecting your makeup and skin from the elements... all the while giving you the benefit of incredible looking, younger, fresher skin!

**I am so in love with the applicator**

that I give you for this as well! Swirl it in the product and softly pat the magical formula all over your face (I would never, by the way, ever tell you to do that with powder!). Those awesome little corners are a great way

to get into all those hard to reach places such as side of nose and inner corners of your eyes.
